

IWUF REGISTERED TESTING POOL INFORMATION

As you know, the International Wushu Federation (IWUF) which delegates the management of its anti-doping programme are totally committed to eliminating all forms of doping within the sports of Wushu. At the heart of the IWUF efforts are programs, which also require the commitment of Wushu athletes and their support personnel. We need you to help us in our effort!

IWUF accepts and supports the requirement of the World Anti-Doping Code and its International Standards maintained by the World Anti-Doping Agency (WADA). One of the requirements considered of utmost importance by WADA is for each International Sport Federation (IF) and National Anti-Doping Organisation (NADO) to define a group of athletes as their *Registered Testing Pool (RTP)*. Therefore, the IWUF creates each year (since 2012), for the purpose of its anti-doping testing program, the IWUF RTP. This means a group of international-standard Wushu athletes who meet certain criteria. Our criteria for adding an athlete to the IWUF RTP include (but are not limited to) competition results, classifications, disciplines and other factors determined by the IWUF.

By the IWUF RTP Notification Letter, the IWUF informs you that you are now included in the IWUF Registered Testing Pool. You remain in the IWUF RTP until you are informed by the IWUF that you are no longer included. If you retire from the sport, the IWUF will remove you from the RTP, only after receiving your Retirement Notification Form.

As an IWUF RTP athlete, you are required under the IWUF Ant-Doping Code to submit your whereabouts information to the IWUF (See Appendix B to find out more about whereabouts). This is done through the online database ADAMS. (See Appendix C to find out more about ADAMS)

Note: You have an obligation to be available for testing at any time and place and you must comply with any request for testing by any anti-doping organisation with testing jurisdiction
